POWERING THE FUTURE

meccalte

COMPANY INTRODUCTION

LINKS is full line electro-mechanical engineering company for power generation solutions related to various types of industries including Textile (Spinning, Weaving & Dyeing), Food, Process, Steel, Pharmaceutical, Petrochemical, Banking & Automotive. We are serving these industries since last one decade for Pakistan market & abroad as well. We are authorized business partner of Mecc Alte UK in Pakistan for their product line. Nationwide, LINKS is the only company who is providing complete solutions to their customers under one umbrella for different power generation sources to distribution systems.

MISSION & VISION

To be the premier in power generation field as provider of the highest quality engineering services, and to implement solutions for achieving full customer satisfaction delivered through the safe technical competence and professional integrity of all our employees. Words such as integrity, loyalty, and customer satisfaction-while routinely used words without meaning in business today, we have always taken these words seriously. Our mission is to consistently provide quality services to our valued clients whilst embracing professional standards & ethics.

Building a partnership with our customers is paramount in creating long term relationships; this has always been the vision and the goal of LINKS. Our philosophy has proven that working together with clients as partners, truly does create more than just a business opportunity, it creates a long-term professional relationship. Our list of projects and our combination of new and long serving employees offers an unparalleled depth of experience which results in the best solutions and practices for our valued clients.

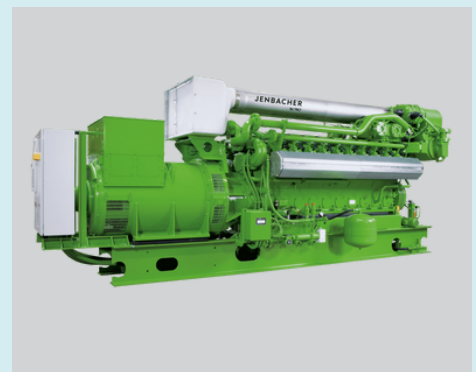

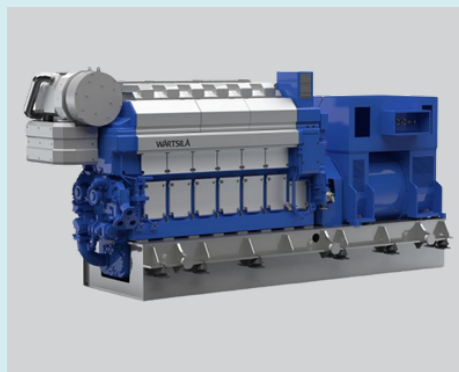

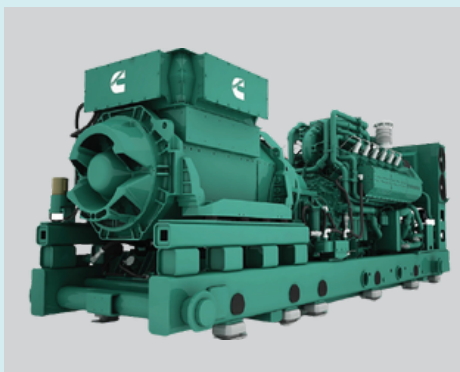

POWER PLANTS

PARTS & SERVICES

LINKS is committed to provide services with complete range of parts (Genuine & OEM) for world renowned brands for Natural Gas, Diesel & HFO Gen-sets. Our technical team has 20+ years of experience for Caterpillar, Jenbacher, Cummins, Perkins & Wartsila product equipped with all range of special tools including updated system software. We have been committed to offering the highest level of customer service including operation & maintenance, troubleshooting, top-end/in-frame & major overhauling.

SALE/PURCHASE & RENTAL

Reliable backup power is an important priority for any organization. LINKS always meet customer's need with best equipment to fulfill their power demand. We always have wide range of HFO, Diesel & Natural Gas Generators on rental & BOT (build-operate-transfer) model with flexible period of time. Sale-purchase of used & brand-new gen-sets is an entity of LINKS offering reliable & economical solutions in the power sector of Pakistan.

CONTROL SYSTEMS

SYNCHRONIZATION CONTROL SYSTEM

Auto control system for gen-set to gen-set synchronization & grid parallel operation is the basic need of captive power plants in Pakistan & we are the pioneers in this field since last one decade. LINKS have been working for Meccalte, SICES, Huegli-Tech & ComAp control systems with most experienced team. In industrial power sector of Pakistan LINKS is the only company who delivers single window solution to the customer from design to execution including up-gradation of power panels. We are expert to replace control system of other third-party controllers with our own brand Meccalte as master control system with all safety & measuring parameters.

RENEWABLE ENERGY SOLUTIONS

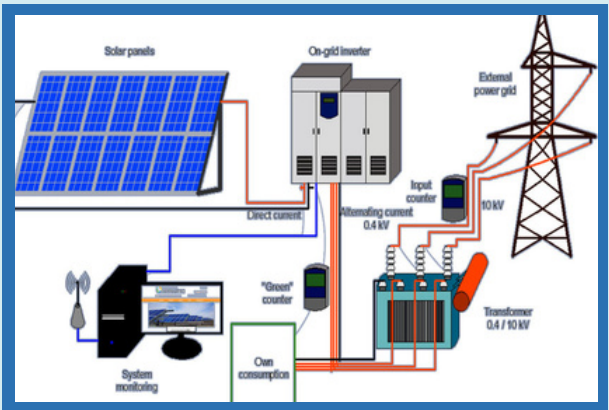

LANDMARK ENERGY

Landmark Energy is a sister concern company of LINKS brings with it unparalleled partnership stories from local and international groups. Commercial and Technical Advisory are coupled with a dedicated team that provides the best possible solution as per customer's needs. We are 20 Years of experience in commercial and industrial sector. We offer customized small, medium and large-scale solar solutions in the region with a vision to create an energy rich future while upholding our commitment to the planet through safe and sustainable practices. Landmark Energy is Pakistan's fastest growing solar company, with nationwide presence, more than 100 installations, growing at 100% year over year.

PRODUCT OFFERINGS

Smart Solar Energy Solutions for Residential, Business & Industrial users ranging from 3KW to 10+MW with Hybrid & Grid-tied solutions. Landmark Energy is the only company in Pakistan who is offering O&M services for industrial solar power systems.

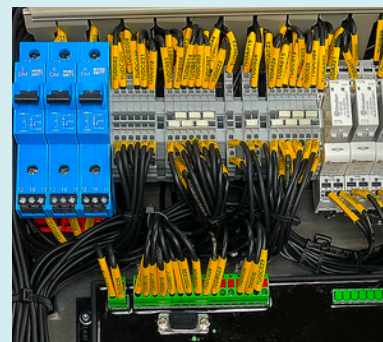

POWER SYSTEMS

LV/MV SWITCHBOARD

Manufacturing facility of LINKS comprises manufacturing of brand-new LV/MV switchboards with Schneider, ABB, Siemens, LS, Hyundai, Terasaki, Legrand, GE, & Mitsubishi brands in addition to supply & installation work of bus-bar trunking work as well. LINKS design team always help customers to design out their substations according to need & future perspectives. We also supply complete range of electrical equipment to industry for their substations & production floors.

MODIFICATION/UP-GRADATION

Moreover, modification tasks for LV/MV switchboards, involving installation of accessories in existing switchboard which is always very difficult job to do but LINKS most competent & experienced technical teams always make it so easy to perform. We are specialized to work on site at customer's existing systems during their planned shut down activities.

RESISTIVE LOAD BANKS
